

PM Global, Inc.

PMGlobal

# About PM Global

PM Global is Japan's first company specializing in global projects. We act as a bridge between Japan and the rest of the world to promote our clients' projects.

We support our customers with three strengths, and together we realize the desire for 'change' in corporate projects.

We have contributed to around 100+ global projects over the past 17 years.

# Mission, Vision and Value

## Mission

Establishing greater global collaboration

## Vision

Bringing people together for success of the project

## Value

PM Global focuses on five values to ensure the advancement of your global project.

**Respect, Openness, Challenging, Innovative, and Commitment**

# Service portfolio

We offer services for a wide range of requirements, with our core value of international connections as the key. <https://www.pmglobal.jp/en/service>

## Connected Car Project

# Typical image of PM support

We not only manage projects in Japan, but also overseas affiliates and cooperation partners.

Main tasks in the PMO: Progress and issue management, preparation of various documents, taking minutes, and Resource management, change management, communication planning and implementation, budget management, escalation, management reporting, etc.

# Benefits of our involvement

---

## One Team

Coordination with relevant departments and communication with overseas vendors to create a **one-team** with the same objectives.

## Evangelist

Awareness-raising activities to increase understanding of the project and **encourage people** to become supporters and fans.

## Communication Hub

Talking to members of various stakeholder groups allows **information to be gathered and transmitted**

# Feedback from our customers

- ✓ Successfully established smooth communication with foreign stakeholders. Increased visualization of the overall project and **clarification of issues was achieved**. (Manufacturing, IT sector)
- ✓ Enabled greater responsiveness to matrix organizations. Had **complex relationships successfully organized**. (Europe-based, finance and sales sector)
- ✓ Smooth communication has been established with overseas vendors, and visibility of progress has enabled **timely decisions to be made**. The project status was understood in detail. It provided an opportunity to review overseas vendors. (German manufacturing industry, after-sales sector)
- ✓ The IT department had been unable to successfully implement in-house PM training, but by involving in-house staff in the PMO, **they were able to train younger staff internally**. (Automobile manufacturer, IT Department)
- ✓ Not only did they manage professionally, but **they also made a significant contribution to building consensus** with the various departments involved, both nationally and internationally.

( Foreign manufacturing companies, Lifecycle Management Department )
